CAREER OBJECTIVE

Motivated and detail-oriented BCA graduate with strong hands-on experience in full-stack web development using the MERN stack. Proficient in building scalable, database-driven web applications with clean and maintainable code. Demonstrates solid understanding of software development principles including MVC architecture, RESTful API design, and user authentication workflows. Campus-selected as Associate at Jade Global — committed to growing in functional IT consulting and enterprise application domains while continuously upskilling in business processes and technology.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap 5, Responsive Web Design

Backend Development: Node.js, Express.js, RESTful APIs, MVC Architecture, Middleware Design

Database: MongoDB, Mongoose ODM, MySQL (Basic), CRUD Operations, Schema Design

Authentication & Security: JWT Tokens, Session Management, bcrypt Password Hashing, Authorization Middleware

DevOps & Tools: Git, GitHub, Postman (API Testing), VS Code, Docker (Basic), GitHub Actions (CI/CD - Basic)

Architecture & Concepts: Client-Server Model, Microservices Awareness, API Integration, Error Handling, dotenv Config

Office & Business Tools: MS Excel (Intermediate), [PLACEHOLDER: ERP/SAP Basic if applicable]

PROJECTS

WanderLust – Full-Stack Travel Booking Platform

Tech Stack: Node.js, Express.js, MongoDB, EJS, Bootstrap | github.com/git-shubham-side/WanderLust

- Designed and developed a full-stack web application inspired by Airbnb, enabling users to list, discover, and book travel stays with a review system.
- Implemented complete user authentication system including secure signup/login, session management, and role-based access control using Passport.js.
- Built full CRUD functionality for property listings — users can create, edit, view, and delete listings with image upload support.
- Integrated interactive location-based search and category filtering for better property discovery experience.
- Developed a review and star-rating system with user-specific edit/delete permissions.
- Followed MVC (Model-View-Controller) architecture for clean separation of concerns and scalable backend structure.
- Deployed application with environment configuration using dotenv for secure secret management.

PetCare – Animal Rescue and Information Platform

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap | github.com/git-shubham-side/PetCare

- Developed a fully responsive web platform aimed at connecting pet owners, rescue volunteers, and animal shelters across cities.
- Created a city-based emergency rescue dashboard featuring a live contact directory for quick access to rescue coordinators.

- Implemented smooth UI animations, mobile-first responsive layouts, and intuitive navigation for cross-device usability.
- Designed an information hub section covering pet care guides, adoption resources, and shelter listings.
- Built entirely using vanilla HTML, CSS, and JavaScript — no frameworks — demonstrating strong core frontend fundamentals.

NoticeProject – Digital Notice Board Management System Hackathon Project

Tech Stack: Next.js, TypeScript, React, Tailwind CSS | github.com/git-shubham-side/NoticeProject-Working

- Built as part of a team during Hackspectra 2.0 — a collaborative full-stack web application for managing and displaying notices digitally.
- Developed using Next.js (App Router) with TypeScript for type-safe, scalable frontend architecture.
- Implemented reusable React component library with context API for global state management across the application.
- Utilized custom React hooks for clean separation of business logic from UI components.
- Designed responsive and accessible UI using Tailwind CSS with consistent design system via components.json.
- Structured project with dedicated folders for app routing, components, context, hooks, lib utilities, and TypeScript types — demonstrating production-level code organization.

Role: Team Leader | **Team Size:** 4 members

EDUCATION

Bachelor of Computer Applications (BCA)

MGM College of Computer Science & IT, Nanded

Board/University: S.R.T.M. University, Nanded | **Year:** 2026 | **CGPA:** 8.93

HSC – Higher Secondary Certificate (12th)

Shri Sant Gadge Maharaj Arts, Commerce And Science College, Loha

Board/University: Maharashtra State Board (MSBSHSE) | **Year:** 2023 | **Score:** 60.00%

SSC – Secondary School Certificate (10th)

Madhavrao Patil High School, Nanded

Board/University: Maharashtra State Board (MSBSHSE) | **Year:** 2021 | **Score:** 75.60%

ACHIEVEMENTS & ACTIVITIES

- Built and deployed multiple production-ready full-stack and frontend projects independently on GitHub without guided coursework.
- Consistently self-studied DevOps concepts including Docker, Kubernetes (basic), and CI/CD pipelines beyond BCA curriculum.
- Participated in Hack spectra 2.0 — developed a full-stack Notice Board Management System using Next.js and TypeScript as part of a team.

PERSONAL DETAILS

Date of Birth: 07/02/2005

Gender: Male

Nationality: Indian

Marital Status: Single

Languages Known: Hindi, Marathi, English

Permanent Address: At Post Sawargaon Nasrat, Kesunaik Tanda, Tq-Loha, Dist-Nanded – 431708

Current Address: Labh Nagar, Nanded, Maharashtra

DECLARATION

I hereby declare that all the information furnished above is true, complete, and correct to the best of my knowledge and belief. I understand that in the event of any information being found false or incorrect, my candidature/appointment is liable to be cancelled/terminated without any notice.

Place: Nanded

Date: 18/04/2026
